Education

BS Computer Science, *Superior University*   2019 – 2023

                                                                                                              Lahore

Professional Experience

Game Developer, *MetaDort*

As a gaming developer at Metadort, I'm focused on turning ideas into reality. With a knack for concept creation and a passion for game development, I'm dedicated to crafting engaging experiences that players love.

Software Engineer Intern, *Intersoft*

During my internship at Intersoft, I focused on web basics, Bootstrap, and PHP. I gained practical experience and enhanced my skills in software engineering, laying a strong foundation for my career growth.

Projects

Animal foods and Agricultural Services, *Bootstrap, MySQL, Php*

Ecommerce side for Agricultural services and also we're adding features that'll assist farmers in getting services from doctor. There'll also be a disease diagnostic system for plants.

Cubethon, *C#, Unity*

In "Cubethon," I created a thrilling obstacle runner game using Unity and C#. From designing levels to implementing gameplay mechanics, every aspect was crafted from scratch, showcasing my proficiency in game development and C# programming.

Monster Chase Game, *C#, Unity*

In my first foray into game development, I followed a YouTube tutorial to create a monster chase game using Unity and C#. This project marked my initial steps in learning game design and programming, igniting my passion for further exploration in the field.

Restaurant Management System, *MySQL, Php* ⊡

I developed a website using PHP and MySQL as the backend technologies, and a pre-designed template for the frontend. The project involved implementing various features and functionalities, including database integration, user authentication, and data processing.

Portfolio Website, *Bootstrap, JS, CSS* ⊡

I designed and developed my own responsive portfolio website using a combination of Bootstrap, HTML, CSS, and JavaScript. This showcase demonstrates my proficiency in creating visually appealing and user-friendly web experiences while highlighting my skills and accomplishments.
